## *"Jared's Quest for A Cure"*

### Dollard Dragons' 6<sup>th</sup> Annual Regional Festival (April 26-28, 2019)

Jared Benzekri was a 7 year-old boy in our Dollard soccer family who in November 2014, was diagnosed with Diffuse Intrinsic Pontine Glioma (DIPG), an inoperable brainstem tumor. Following a short but brave battle with this horrible disease, he passed away on September 28, 2015. In honor of Jared's memory and in an effort to continue raising awareness and support for Childhood Cancer Research, our Club has renamed the event *"Jared's Quest for A Cure"* and will continue donating 50% of our net proceeds to the Montreal Children's and St. Justine's hospitals. The remaining 50% help fund players in our community in need of financial support to ensure our wonderful sport remains accessible to everyone! We invite you all to join our Festival and support our great cause!
